

100 BEST CORPORATE CITIZENS

2022 Methodology

OVERVIEW

3BL Media's 100 Best Corporate Citizens ranks the 1,000 largest, publicly traded U.S. companies on environmental, social and governance (ESG) transparency and performance. This document outlines the 2022 methodology set by 3BL Media, including changes from 2021, all factors used to determine the ranking and how the ranking is processed. **For more information, visit the FAQs page: <https://100best.3blmedia.com/faq/>.**

Companies are assessed for 100 Best Corporate Citizens based on their ESG transparency and performance, researched from only publicly available information. There is no survey or questionnaire, and no cost or fee to be researched and ranked. 3BL Media's partner, ISS ESG, conducts the research and processes the ranking. The publicly available sources ISS ESG reviews, include:

- Corporate websites, reports and documents (e.g., annual, corporate responsibility and sustainability reports, SEC filings, policies, etc.)
- Reputable third parties (e.g., CDP, Compustat, FactSet, GRI, UN Global Compact, U.S. EPA)

Companies can verify, and respond to, how ISS ESG rates the company on factors used in the ranking through their company's ISS ESG online portal. There is no cost to verify data and information with ISS ESG. Each 100 Best factor has an ID number to reference in the ISS ESG online portal. The factor ID number corresponds to the ISS ESG E&S Disclosure QualityScore and Governance QualityScore. Factors without ID numbers – marked N/A – cannot be verified by companies as ISS ESG sources the data and information from a third party (e.g., FactSet) or the factor is researched by ISS ESG but is not yet part of the E&S Disclosure QualityScore or Governance QualityScore. Factor ID numbers with a decimal are subfactors. For example, factor 450.1 in the Employees pillar is a subfactor of factor 450. To verify subfactors, the overarching, or parent factor, must be first satisfied.

Email ESGHelpdesk@iss-esg.com (Cc 100Best@3blmedia.com) to request online portal access and add users, and in your inquiry.

Companies may verify data and information with ISS ESG anytime. The deadline to verify data and information used for 100 Best Corporate Citizens of 2022 is Friday, March 18, 2021, 8:00 p.m. PST. The top 100 will be announced Wednesday, May 18, 2021.

PROCESSING THE RANKING

- Weight each individual factor within a pillar. Some factors have higher relative weights.
 - 3BL Media does not disclose individual factor weights so the ranking can't be replicated.
- Calculate the underlying score for each pillar, then rank the full Russell 1000 within that pillar in ascending order (1 is the best rank).
- Apply the pillar weightings to generate an overall weighted average ranking for each company. The higher the weighted average, the better a company's ranking.
- Tie-Gaps:** When several company scores tie, there is a gap between that score and the next closest score. For example, if two companies tie for the top rank, the company or companies that earned a second-place rank will place third. Second place is sacrificed for the tie-gap, so third is the next available rank after the tie-gap.
- The controversy screen is applied. If ISS ESG identifies a Severe or Very Severe controversy, the company is penalized 10 points on its final, overall weighted score. Controversies and subsequent penalties are not publicly disclosed in the ranking.
- The lobbying screen is applied. Our partners at InfluenceMap (<https://influencemap.org/>) will measure the intensity of company lobbying and whether this lobbying is supportive or oppositional to Paris Climate Agreement-aligned policy benchmarks.
 - Companies with a high lobbying intensity and oppositional lobbying will receive a "red flag" and will be penalized 10 points on its final overall weighted score. The "red flag" and subsequent penalty are not publicly disclosed in the ranking.
 - NEW** Companies determined to be using their influence and lobbying efforts with high intensity to support Paris Climate Agreement-aligned policies will receive a "green flag" and will have 10 points added to its final overall weighted score.
